

Message concerning COVIT-19 by KHCP
March 17, 2020

Dear friends in the schools and monasteries in Nepal and India,

Peter and I are in Germany and we all experience a new worldwide situation.

All of a sudden, it seems that we do not know what will happen tomorrow.

As Buddhists, we actually do know already that everything changes all the time. Yet the crisis makes this visible.

This is a good opportunity for all of us to fearlessly look at our own health in order to then benefit others.

We all are compassion in action.

To the best of our capabilities, we help and take care of each others.

Peter, I and the KHCP-team appeal to you to take good care of yourselves, stay at a physical distance yet stand together in mind. Keeping good hygiene, helping children and seniors, washing hands is important.

Please contact the KHCP when the monastery needs specific assistance such as medical support or money for persons hit by the disease!

We make good wishes for us all to meet again in good health and that we may overcome the crisis with more compassion as a result.

We know that this is what we can - and will - do!

Yours Pia, Peter and the KHCP-team
